STARRED QUESTION NO:343
ANSWERED ON:13.12.2001
RURAL ELECTRIFICATION IN THE NINTH PLAN
GIRDHARI LAL BHARGAV

Will the Minister of POWER be pleased to state:

(a) the target fixed for rural electrification scheme in the country during the Ninth Five Year Plan, State-wise;

(b) the estimated amount to be incurred thereon;

(c) whether the target is being achieved; and

(d) if not, the reasons therefor?

Answer

THE MINISTER OF POWER (SHRI SURESH P. PRABHU)

(a) to (d) : A Statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PARTS (a) TO (d) OSTARRED QUESTION NO. 343 TO BE ANSWERED IN TI LOK SABHA ON 13.12.2001 REGARDING RURAL ELECTRIFICATION IN THE NINTH PLAN.

(a) to (d) : For the 9th Five Year Plan, an overall target of electrification of30,000 villages and Energisation of 20 lakhs Pumpsets had been set. The State- wise targets and achievement for village electrification and pumpset Energisationduring the 9th Plan are given at Annexure-I & II respectively.

Rural Electrification programmes are formulated and implemented by the States. Rural Electrification Corporation (REC) supplements the resources of the State Governments and provides loan assistance including 100% grantunder Kutir Jyoti Programme for the rural electrification programme. The State- wise details of disbursement of loan and grant made by REC during the 9th Planare given at Annexure-III.

The pace of rural electrification during the 9th Plan was notencouraging. The declining financial position of the State Electricity Boards (SEBs) combined with the relative decline in share of the Power sector outlays inthe State Plans have contributed to this situation.

The Conference of Chief Ministers held on 3rd March, 2001 resolved that :

(i) Rural Electrification may be treated as a Basic Minimum Service under the Prime Minister`s Gramodaya Yojana;

(ii) Rural Electrification may be completed by the end of the 10th Plan i.e. by year 2007;

(iii) Full coverage of all households may be targeted for the end of the 11th Plan i.e. by year 2012.

To meet this national goal, rural electrification has now been included under Pradhan Mantri Gramodaya Yojana (PMGY) from the year 2001- 2002 as a Basic Minimum Service, under which an allocation of Rs.41859.90 lakhs has been made by the States.

According to PMGY guidelines, at least 10% of total allocation foreach State will be earmarked for rural electrification. In addition to this, the States have flexibility to allocate/spend funds out of the un-earmarked 35%.

The States have been advised to draw up a time bound action planfor the fulfillment of the national goal of coverage of all villages by 2007 and all households by 2012.

ANNEXURE-I
